

Testimonials

SuEllen Romero, Coordinator - Outside Services - Delta Airlines - Atlanta Operation

"The **staxi**[®] wheelchair has been a super addition to the Atlanta [Delta] operation. It is very safe and reliable . . . STAXI[®] has been awesome to work with and... has bent over backwards to make us happy. Give them call."

Ron Howard - Managing Director Passenger Services, Air Serv

"**staxi**[®] is the best for safety and ease of access in the airport environment. The locking brake is mistake proof and the chair will not move when the handle is released. You can stand up in the chair and it will not tip thanks to the anti-tip system in place and the cover is antimicrobial which means there are no germs and if anything is spilt on it then it is easy to wipe clean."

Gus Zografopoulos - Founder, Kosta Z Foundation

"From observing and being in a **staxi**[®] I can say that they are sturdy and comfortable. They are something you can look forward to using and you feel a part of the atmosphere in the airport when you are using a **staxi**[®]."

Bushra - Air Serv

"I think it is the best wheelchair in the world as it is so easy to push, you can put anything underneath of it and it is still easy to push. Everyone loves **staxi**[®], they are so comfortable and are the best to push."
